Recently I sat in on a conversation where people from several organizations within the Company were talking about all the things that the Company gives the employees. I took it for as long as I could and then exploded. I apologize to those who undeservingly caught some splatter.

The Company gives us nothing. Everything we receive was bargained for. Some of it a lifetime ago and many will never know the cost. The wages and benefits we enjoy were paid for with someone else's blood, sweat, tears, and lives. We have been given nothing. What we have has been earned.

At least part of the problem is the people who know are slowly leaving and those who remain never knew. We need to do a much better job educating and involving the membership. It starts with YOU!

Just when we thought it was safe it's back. Nobody wants to do it, Nobody wants to wear it, but it's back. The mask mandate is here for the foreseeable future. As long as people won't get vaccinated and this strain of COVID is around, mask up. This strain is more contagious and more deadly unless you are vaccinated. The mask are required at EB for your protection, the protection of your family, and coworkers. This is not popular. It is not fashionable but it's required.

Please continue to work safely and mask up, again.

As Always, I Remain
Fraternally Yours
Peter E. Baker

Congratulations and a Happy Retirement

Patrick Fitzgarrald of Department 333 retired last month. Pat was the most senior member of Administrative Clerks. Pat started in January 1966 and leaves after more than 55 years at EB.

POLITICAL ACTION

OPEIU and the labor movement have a responsibility to protect and advance the rights of members in the political arena as well as at the bargaining table. The importance of this political responsibility has never been greater. Only through effective political action will we achieve programs that rebuild our industrial base; that help every young American who needs such help as far up the education ladder as his or her talents and capacity permit; that guarantee equal rights for women and minorities in all aspects of our political and economic life; that rejuvenates America's infrastructure; that allow every elderly American to retire in dignity and security; that protect the rights of every working American to organize and bargain collectively; and all other policies that affect union members and their families.

Those who oppose this agenda can generate many millions of dollars for their political candidates. We need to offset the huge amounts still being generated by wealthy individuals and corporations. Effective political action, including financial contributions to labor-friendly candidates, is the only way working people can have a positive impact on the legislative process. You can get involved in the political process by supporting the OPEIU Voice of the Electorate Fund through payroll deduction. See your officers and steward and sign up now.

If you wish to get involved in mobilizing members to elect pro-worker representatives contact this office. For more information visit www.ctaflcio.org.

Dear Brothers and Sisters:

Our condolences go to the family of Brother Jadon Nicholson who lost his life on the way to work on 08/13/21.

So young, so very sad. A reminder to enjoy life and your family, friends and coworkers. RIP.

The Covid mask mandates are coming back. We are now required to wear masks while at work regardless of your vaccination status. We are told to follow the science. I am getting a little dizzy following the science. They say get the vaccine and you don't have to wear a mask anymore. Then they say to wear a mask to protect those who don't have the vaccine. Some are vaccinated and still getting the virus. The media sucks at reporting on these outbreaks. The media says (for an example) the Sturgis bike rally will be a Super spreader but down play 210,000 people crossing our southern border in the month of July! Follow the science. All I can tell you my Brothers and Sisters is to follow the rules that are set at work. Be safe, be smart and to steal a quote that our Safety rep at the base says, "the use of common sense is authorized". This can be applied to everyday life. Also, beware of what you post while online. Big brother is watching. Once again, use common sense. (and follow the science).

The company is starting a new incentive to hire more employees that will benefit us directly. It is the employee referral program. If you refer an employee and they get hired, your name will be placed in a lottery and you can win prizes. There will be more information on this program soon. The company may be hiring up to 200 Boilermakers in the next few years. If you know someone that would be a good fit, refer them and you may benefit from it. If you are interested in getting in to the next Apprentice classes please let your supervisor and your Union Steward know.

The last article I wrote I stated that the Company was not paying up front for the retirees going away parties. I received some push back from HR on that. The format has changed after it was shutdown due to Covid. I am still hearing that some members are paying up front, then getting reimbursed, and on the other hand, the retiree supervisor is paying for the food with a company issued credit card. Hopefully, this can be worked out very soon and I will gladly "eat crow" and retract my prior statement. I will keep you all posted.

At the last Union meeting we were discussing plans to have a party for our members and their families. We received a few requests and we will be trying to get a good family day event for all of you. Come to the monthly meetings and we can openly discuss our options.

See you at the next meeting on Tuesday, September 14th at the Union hall 33 Sacred Heart drive Groton, at 2:45pm. See you there.

Sincerely;

Patrick Joyce
President

I would like to congratulate Ernest "Tojo" Holley & Earl Pudeler on their 40 years of service to the painters. Congratulations to our newest Distinguished Shipbuilders!

Thank you to everyone for coming out and supporting for the painter's barbeque. I hope everybody had a great time. I appreciate all the help and look forward to more get-togethers in the future as long as Covid allows it. Speaking of Covid, face coverings are back to being required on the boats. Also inside buildings and outside where you cannot social distance. Please wear your face coverings and be respectful of other people. I would like to thank our members that participated in the OSHA 30 class in Westerly, Rhode Island. Please share what you learned with our other members so we can continue to work smart and work safe. If you see something wrong, please say something. Always help each other so we can all go home safe. I would like to welcome our new hires to the paint department. The next union meeting is scheduled for Tuesday, September 14, 2021. Yes we are going to have a face to face meeting or at least try. We have to adhere to the social distancing guidelines which require face masks indoors. The meeting will be at the Machinist Lodge located at 18 Pleasant Street Groton CT. All members are invited and encouraged to attend with any concerns or questions. Note that second shift employees do not have to use their own time to attend, and a union business shop order will be provided for their supervisor.

Once again I would like to thank all that are adhering to our social gathering guidelines here in the shipyard. I think all would agree that the masks are a pain but it is pretty much the reason why we have a low rate of exposure in our workplace & throughout the community. This pandemic is not a farce, we don't even hear about the thousands of people young and old that has acquired permanent health effects from this disease.

There is talk about contracts with the Navy being delayed and work being moved to the right which causes concerns of reduction in the work force. First of all these are not definite rumors and I have been assured there will not be any lay-offs or furloughs by our Operations Directors. If necessary the Company would loan (or flex) individuals to other Departments that need help, they would search for off-site work such as Portsmouth NH or Norfolk VA. The Company does not want to run the risk of losing employees that have been trained and qualified to perform our work. Hopefully this is all talk. I would like to update our road job rotation list so we can properly assign the right people. We will post the list so that you can check for your availability. Any questions please see John Hinehold, Nicole, or call me.

NNFS Assignments: Please be aware that assignments at the sub base become available now. These appointments are made by seniority, occupational title and shift. Anyone interested must submit an IRM requesting this position. Any questions please contact your Steward.

New Hires Please Note: You are eligible to sign up for your medical benefits after being employed for thirty days. Please do not forget to add your dependents. If you do not enroll within thirty days after eligibility you will default to just your medical coverage and have to wait until regular enrolment in November which will not take effect until January.

The political role of this local is to support politicians, bills, and policies that help workers and their families. For the last forty years the Republican Party has endorsed legislation that has taken or reduced workers rights and privileges. They have used issues like The 2nd Amendment, abortions and immigration as a means to get your support in elections to allow them to move their corporate agendas. The 2nd Amendment is important to me also, I have my share of guns, but the right to earn a decent wage is my priority. They want you to believe that the immigration & welfare problems are ruining the economy. I can tell you that the money that goes through Wall Street in one day could pay for all this and more. The abortion issue is difficult but don't you think it is hypocritical to demand your 2nd amendment rights but tell women she has no right to choose. I know a large majority of you will not agree but I am asking you to just think about it. I would hope that you would take this information in consideration and focus on the real life priorities that impact you, your family and co-workers.

Please Work Safe

Respectfully and fraternally,
Richard "Chick" McCombs

Local 777

Our condolences go out to the family and friends of Henry Facas, who passed away recently. Henry was hired in 1963 and retired back in 2010 from the UT department. Best wishes and a long and happy retirement to our latest retiree: Mark Wydler, a pipefitter who originally started in 1990 (and to you old timers who remember, the originator and composer of the song "2816") Enjoy a well earned retirement.

Two important dates to remember: September 6, Labor day, another Union negotiated paid holiday, and September 11 (also known as 9/11) the 20 year anniversary of the horrific attack on our soil by terrorists). Both, should never ever be forgotten.

The Company is continually trying to hire people to fill all the jobs they have openings for, to complete their workload. We have to deliver 3 boats this year, as space alone is a commodity. They are ramping up the Colombia Program with the new dock and buildings moving forward. With the amount of new members we are experiencing, rumors run rampant. If you hear something you aren't sure of, go to a reliable person to confirm or deny your question. Preferably, one of the Union officials or stewards. Don't listen to, what I call, the "shipyard lawyers". Most of these people haven't been here much longer than you, but seem to be experts in contracts and/or work rules. If you aren't sure, ask someone. No one knows everything, but what we don't, we know where to go to get the correct answers.

Insurance Update

Electric Boat is going to do a lot of hiring between now and the end of next year. There are things that you need to know to get you through this process. New hires have 0 to 30 days to exercise their benefits. That includes medical, vision, dental, life insurance, etc.

It is also the time to put your spouse and children on the Medical Plan. If you do nothing and go past the 30 days only you will get health insurance no body else will. They will give you their default (Standard) plan. The plan you want to pick is the (Enhanced) plan. That plan will give you seed money and matching money with a (HSA) Health Spending Account to help pay for your medical bills and your prescriptions. So if you are a new hire you need to call the GD Service Center (888)-432-3633 or go online. You can also choose all your other benefits there as well.

MTC Safety Report

Painters - Boilermakers - Electricians - Laborers
Machinists - OPEIU - Pipefitters - Teamsters

Our second shift MTC Safety Rep. Harry Weyant has retired. He devoted many years to the Metal Trades Council. Can't thank you enough Harry.

I wish Harry a long and fun filled retirement. It will be hard to fill his shoes but we must. Anyone that might be interested in becoming MTC Safety on the second shift, please contact your Union Rep.

Also we are now back to wearing masks again, please comply.

The rule is whether you have been vaccinated or not while indoors masks are required, if you can not maintain 6FT of social distance. This means in locker rooms, offices, and the cafeteria. Also remember a lot of hand washing.

There is washing stations throughout the shipyard, they're there for your convenience.

There has not only been an uptick in covid in CT, but here at EB as well. However, there is a very small amount here at EB and the we would very much like to keep it that way. This is why we need to go back to wearing masks indoors.

Remember
Don't hesitate
Vaccinate
