By now you should have a copy of the Contract. It took much more than it should have to put that book in your hands and it should not have caused the disruption it did. Your patience is appreciated. Many people put a lot of time into getting this done and I thank them for their diligence and dedication to getting the job done.

If you were working in a MTC occupational title upon ratification (October 6, 2023) of the Labor Agreement you are eligible for the NCRC. Members began seeing the one time deposit of \$2500 into their 401k on April 22nd. If you are eligible you should check your 401k deposits to make sure you got it. If you did not receive the deposit you should contact your Steward.

If you have received training that makes you eligible for special pay(s), you should start to receive that money in a reasonable amount of time. Months is not reasonable. Contact your Steward if you do not receive what you are owed.

We will once again be participating in the SHIP program. These are High School students in their Junior year who are spending their summer trying out shipbuilding trades to see if it is right for them. Please watch out for these kids and remember they are Kids.

Fraternally yours,
Peter E Baker

CONGRATULATIONS AND HAPPY RETIREMENT

To our latest retiree Dan Fletcher D221. Dan started at EB in 1998 and transferred to Local 106 in 2003. He is retiring as a Data Processor Sr. from Test Records.

DIGNITY AND RESPECT

These are the two words and actions you should think about when you are addressing any matters with coworkers or supervision. If there is any issue speak to your Union Steward.

NEW HIRES: Within the first 30 days after you start you must enroll yourself and your dependents in the benefits package. There are many choices for you to review and time limits for you to apply for these benefits. This is the only 30 days to execute access to the health plan. If you do nothing you will automatically get medical but will not receive dental, extra eye care, and additional life insurance or dependent coverage. Contact General Dynamics Service Center (1-888 432-3633) Monday – Friday 9am to 9pm. OR www.gdbenefit.com (24hrs/7days). Any questions call EB Benefits: 860-433-4201 or John Adamson Temp MTC Benefits Rep - 860-917-7121.

Visit this site and search the many links of valuable information. The Media Center is one example that is updated by our International Union with new information on Union Benefits and current issues of interest.

“Weingarten” Rights

Visit: Youtube Weingarten Rights: Training for Shop Stewards. Take ten minutes to see a brief video from OPEIU Local 8 about your rights. If YOU are sent to SECURITY for any reason or are being questioned by MANAGEMENT, YOU should request a STEWARD. YOU don't have to answer any questions until you have UNION REPRESENTATION. THIS INCLUDES CRITIQUES, “DECKPLACE” OR ANY OTHER INVESTIGATION.

SAFETY SHOES

If you did not pick up your safety shoes last year you can get a more expensive pair this year with the money you did not use. Please do not forget. This is a benefit that has been negotiated for you and we want it to continue. You may now carry money over for one year only to get a more expensive pair. Red Wing Shoes has a store in Groton and if you get your shoes there you will have to pay and bring them into the Safety Dept. with a receipt to get your refund.

I would like to apologize for the delay in a timely distribution of the bargaining agreement with The Company and the MTC. We had expected that after we had proofed and corrected the language the Company would cover the expense of the printing as they had done for the fifty years that I have been here. Unfortunately, they determined that it wasn't "cost effective" and that in the new era of electronics we could read it online. They exercised their right under the labor laws that the Union has the obligation to provide that information to their members. Your Union leadership agreed that all of you deserve the right to have a copy of the agreement that dictates your rights, benefits, wages, and jurisdiction whether you can get on the internet or not. We are currently distributing our contract books. Please contact your area steward if you have not received a copy. "Cost effective"???: I guess there should be no surprise that suddenly they have instituted BUDGET CUTS. Now that they have provided high level salary positions with substantial salaries i.e., Vice President positions, Managers in place of Super-in-tenants, managers to oversee managers, whole bunch of Directors it goes on & on, but they can't afford contract books. Apparently, they can't afford to pay for some of the things they requested in negotiations which were geared to make them more productive, to meet schedules and help to reduce injuries. The Union made unprecedented concessions to these requests and now they can't afford them or would rather spend it elsewhere. Where are their priorities?

When you get a chance, take a look at Memo 84. This is new language that is designed to allow us to work together with management and come up with solutions to make us more productive. Some of us, at least me, felt it could provide an opportunity to open the doors to get our ideas heard. Our MTC President described it as "Process Improvement on Steroids". I know it is early and programs like these take time to work, but I do not believe that it has been taken seriously. I know that some of our solutions have not been addressed and it appears that there is no protocol or mechanism on which steps to use to carry our ideas forward. They seemed to go to one level and it stops. I hope that it is not another failed program.

PPE: This needs to be stated again! This is not just a management problem. There has been a lot of concern from upper management about injuries allegedly caused from not wearing appropriate PPE. Committees have been assigned to come up with solutions and Department Heads are being charged with the liability. As you should know when this happens it usually ends up being our issue. To be honest with you the General Duty Clause of OSHA states that the employer is responsible for protecting against known hazards. They have identified that foreign bodies in the eye is a problem. Unless there is an engineering way to eliminate the hazard it could result with the use of PPE. As I stated they are actively working on the problem. Until then eye protection will be required in the areas designated. If anyone can offer any solutions please contact the following: Union Safety Committee or Steward, Department Safety Committee, Safety Department, Supervisor, or me. We need to fix this problem.

Thank you, Continue to Work Safe!!

I would like to start off, by asking everyone to take a few minutes to remember all our fallen service men and women , who aren't with us, to celebrate Memorial Day. Its more than just another Union negotiated paid holiday, but a special day to pay tribute to everyone who gave the supreme sacrifice for all of us.

This past month we lost two of our retirees, Harry Walker and Steve Grande. Both started back in 1976 with the Local and passed recently.

The Company is continuing to hire newer people into the trades, salary, and management areas. This is a good thing. We are expected to deliver 3 Subs this year, which is also a good thing in some instances , but could be bad in others. Which I have said before, That is a lot of work to lose in one year. With that being said, it seems that discipline to our members seems to be on the rise. Or as I like to call it, selective discipline and enforcement.

The contract books have come in, and we are in the process of getting them out to everyone. Please see your area steward for your copy.

Local 614

Hello Brothers and Sisters;

The nice weather is upon us. Hopefully there will be no winter surprises. One thing I always noted with having good weather approaching is that it brings upper management out of their offices. They see us going to and from our jobsites and most of them automatically think we are being “nonproductive”. Please do not fall into this trap. Try to look busy. Be smart. We will be extremely busy here in the near future when the Columbia hull sections are off loaded.

Job posting; Welder Developmental. This is a premium posting for the Welders. You will be working in the Weld lab in the Southyard. No more boat work. It is a great job.

The contract books are out. If you have not received one yet, contact a steward or come up to the Union hall and get one there. They are a little bigger than the last ones. Please read through the book to see what your rights are. Please hang on to the books. The Union had to purchase the books. If you need a replacement book it will be \$4.00 each.

We are sending 2 of our newer Stewards to the Boilermaker Union Training school in Wisconsin July 7th to July 12th. This is valuable training for our Stewards.

The next monthly meeting is on Tuesday, May 14th at 2:45, Union Hall 33 Sacred Heart Drive, Groton, Ct. There will be an informational meeting for the 3rd shift personnel held on Wednesday, May 15th at 7:00am at the Union Hall. See you there!

Sincerely;
Patrick Joyce

Happiness and Your Health

There is a direct link between your level of happiness and your physical and mental health. Happy people enjoy improved health, more satisfaction with their work and with their co-workers, and move towards more of their life goals. When people are happy, they tend to:

- Feel their best, physically and emotionally
- Perform well at work
- Spread more kindness
- Form stronger interpersonal connections
- Feel more positive
- Stay committed to goals

There are many words to describe happiness. Some of them include: pleasure, satisfaction, and joy. These feelings can come from within you or they can come from the world around you. You can find happiness from:

- Experiencing pleasurable things
- Overcoming challenges
- Satisfaction with your life, work, or things you do
- Doing your best, no matter what the outcome

The positive feeling of happiness comes and goes. This is totally normal. You may wish you felt this happiness more often. To experience this feeling more often, try the following:

- Connect with others
- Perform small acts of kindness
- Practice forgiveness
- Take care of your body (sleep, healthy food, avoid excessive alcohol use)
- Develop coping strategies for stress (exercise, read, get outside!)
- Avoid comparing yourself to others

Navigating your daily life and trying to find more happiness can get overwhelming, but you are never alone. Electric Boat Family Wellness Center is here to help you keep your mind healthy and to help you feel more happy with your life. Our licensed therapists are eager to listen to you and offer guidance in a safe, comfortable and confidential space. Call 860-629-8272 to make your appointment today. You are eligible for 8 free sessions.

If you are experiencing a mental health crisis or emergency, please call 911 or the National Suicide Prevention Lifeline at 988 or text "HOME" to 741741.
